PROFILE Development economist who builds AI applications. I combine economic analysis and analytical thinking with hands-on LLM engineering, shipping working systems on the Anthropic API. Comfortable across research, data, and full-stack development. Russian and English C1, Italian B2.

SKILLS	AI & LLM	Anthropic Claude API, prompt engineering, AI agents, Claude Code, RAG pipelines
	Integrations	MCP, Notion API, Telegram Bot API, REST APIs
	Development	Python, JavaScript / Node.js, React, SQL, Git, VS Code / Cursor
	Deployment	DigitalOcean, automation and long-running agents
	Economics & Analytics	Policy and economic research, quantitative methods, financial modelling, data analysis
	Languages	Uzbek (native), Russian C1, English C1, Italian B2

EXPERIENCE	Hostel Operations Manager — Pellegrino Hostels, Florence	2024 – 2026
	- Managed operations across three properties, coordinating check-ins, payments, and reporting. - Built a React-based automation tool that reduced manual processing time. - Prepared cost analyses and monthly management reports.	
	Product Specialist — Bektemir Metall Konstruksiyalari LLC	2022 – 2023
	- Handled procurement, invoicing, and supplier payment workflows with CIS-region partners. - Prepared financial summaries and documentation packages for management decisions. - Drafted business correspondence and product reports in Russian and English.	

AI PROJECTS	Multi-Agent AI System — Independent	2026
	- Built an AI system on the Anthropic API that coordinates multiple agents into automated research and content pipelines. - Integrated Notion via MCP so agents read and write structured data.	
	Personal Telegram AI Assistant — Independent	2026
	- Built a Telegram bot powered by the Anthropic API with persistent conversation state. - Deployed for 24/7 operation on DigitalOcean.	
	Job-Finder Agent — Independent	2026
	Built an agent that matches job listings to a structured candidate profile through an external API.	
	Fitness Tracking Telegram Web App — Independent	2026
	Full-stack Web App with a React frontend and Node.js backend, delivered in staged milestones.	

EDUCATION	MSc, Development Economics — University of Florence	2023 – 2026
------------------	--	-------------

- Thesis: startup scaling and institutional voids in Uzbekistan; original three-stage framework, 310-founder survey.
- Coursework: quantitative research methods, financial modelling, institutional economics.

BSc, Management (Railway & Transport) — Tashkent State Transport University

2018 – 2022

CERTIFICATIONS

AI Engineering for Software Developers — DataCamp

Associate Data Analyst in SQL — DataCamp
